

Workers' Compensation Care Manager

Job Description: Promotes workers' compensation specialty physician panel to NJ payers (i.e. employers, insurers, and third party administrators). Establishes the panel as "Physicians of Choice" for workers' compensation medical care. Directs case management of workers' compensation medical care to appropriate physician specialists. Organizes and ensures quality of medical specialist panel and their internal office processes to maximize payer and patient satisfaction. Develops and implements systems to promote efficiency and utilization of appropriate medical specialists. Evaluates compensation, manages, and tracks an inventory of workers' compensation bodily injury claims.

Experience: Previous progressive workers' compensation case management experience. Minimum of three years job-related experience, particularly with a major workers' compensation insurance provider. Prefer five years job-related experience and three years experience as a NJ workers' compensation case manager with a major insurance provider.

Education: Bachelor's degree or equivalent work experience. Prefer Bachelor's degree in business, communications, or marketing.

Training: Case management, NJ Workers' Compensation Statute, General Insurance Policy Coverage, NJ Tort Law, Loss Prevention, OSHA Standards, and Disability Guidelines. Prefer training in Business Management, Public Speaking, Sales, NJ Workers' Compensation Law, and other applicable regulations.

Special Skills: Extensive motivation, sales, and presentation skills. Strong computer competency with database, spreadsheet, presentation, project management, publishing, Internet, and word processing software.

Licensure/ Certification: Drivers License (Reliable automobile and current automobile insurance required). Prefer Certified Case Manager (CCM) and/ or NJ Property/ Casualty Insurance License.

Salary: Very competitive, based on experience, includes excellent benefit package
